

ALTE SCHMIEDE

Eating is a need

enjoying is art.

La Rochefoucauld

The "Old Forge" ... Many years ago, this place was still a blacksmith's workshop, a manufactory where the impact hit the glowing iron. The glowing forged coal in the dining room, the shiny workpiece heated to a 1250 °C high temperature and a heavy hammer brought the materials into their artistic shape. What an indispensable craft of the time.

In 1986, we continue that craft in our own way, transforming the raw materials in our cooking workshop into delicious dishes. This is how our history of the "Old Forge" begins. For 30 years you can admire a whole range of freshly prepared dishes in the "Alte Schmiede" and of course enjoy them.

Our cuisine offers the famous dishes of traditional German cuisine, an imposing range of specialties from the Balkans and equally precious dishes of Mediterranean cuisine. We also offer carefully selected dishes that are specially adapted to the season.

The aim is to offer our guests an atmosphere of joy, security and enjoyment. A place where the soul rejoices when the food of the "Old Forge" melts on your palate!

The House of the "Old Forge" welcomes YOU
and wishes YOU a good appetite!
